- New this year (2023): - we are installing electrical meters. \$200 of electrical usage will be included with your site fees. After that there will be a charge. Electrical service is 15-amp power with the option of requesting a 20 amp breaker for a seasonal fee. Power outages occur randomly at Lac La Nonne and we are not responsible for any losses, including fridge contents due to these outages. Please make sure your unit is on propane before you leave. Use propane for hot water tank and furnace. We discourage use of electric heaters, electric stoves, electric hot plate, and electric water heaters. Electric vehicles are not to be charged on site.
